

● Apple **FUJI KIKU[®] FUBRAX**

Tree: high vigour, robust branches and quick fruiting. Excellent productivity but subject to alternate bearing after a heavy crop.

Fruit: very attractive. Medium to large in size, globular shape with streaked ruby red overcolour, even on the side not exposed to the sun.

The flesh has a firm consistency, it is fine, crisp and has a sweet taste.

Harvest time: 25 days after Golden Delicious cl.B (mid-October).
