

● Pear **DECANA DEL COMIZIO**

Tree: high vigour. Good grafting compatibility with quince (grafting combinations with weak quinces recommended).

Productivity not always constant.

Fruit: large in size, turbinate in shape, with thick, short, woody stem.

Yellow-green skin with some rusty areas. Slight blushing in the areas most exposed to the sun.

White, creamy, aromatic pulp.

Picking season: 15 days after Williams B.C.
